

**HULAMIN**

Think future. Think aluminium.

# 2024

## HULAMIN ENGINEERING GRADUATE PROGRAM

Hulamin is a leading aluminium semi-fabricator & fabricator of aluminium products. Employs at least 1800 people. The only major aluminium rolling operation in sub-Saharan Africa. One of the largest non-mineral beneficiating exporters in South Africa. Over 60% of sales exported to leading manufacturers around the world. Committed to the growth of the Southern African aluminium industry.

**Graduate Programs (Engineer In Training) are available in the following disciplines:**

- Metallurgical Engineering
- Electrical Engineering
- Industrial Engineering
- Analytical Chemistry

### Minimum Requirements:

Bsc or BEng university degree in one of the fields mentioned above

### About the program

The Engineer in training program is a two year structured program, during which the trainees are exposed to theoretical technical and leadership skills, as well as on the job practical training. Each trainee is will be offered with an opportunity to complete a work based project, and be coached by experienced professional engineers.

### REQUIREMENTS:

1. Applications are **ONLY** open to South African citizens, from previously disadvantaged backgrounds.
2. All applicants must meet the entry requirements of the university of choice and their field of study.

### HOW TO APPLY:

Please forward your application form, together with a certified copy of ID (not older than 3 months), motivational letter, latest academic records and university degree to:

**LEARNING AND DEVELOPMENT OFFICE**  
Email: [training@hulamin.co.za](mailto:training@hulamin.co.za)
