

HULAMIN

OPERATIONS

MAINTENANCE ENGINEER

Hulamin is looking for a suitably qualified and experienced Maintenance Engineer for the Coil Coating Line department. This position is based in Pietermaritzburg.

The core responsibilities of this position include:

- Statutory responsibility (appointed in terms of section GMR2 (1) in terms of the OHS act) for Hulamin.
- Execution of tasks required for Statutory compliance in terms of the OHS act.
- Managing the Planning and Deployment of manpower for the execution of essential maintenance and engineering tasks
- Implementation of maintenance strategies
- Adherence to Maintenance Engineering best practice standards
- Leading complex problem-solving initiatives
- Integration of the maintenance effort into process control management systems
- Implementing preventative, predictive and cost impacting maintenance systems in the areas of Manpower, Consumption, Spares and Outside Services
- Executing and managing specialised engineering projects and management of performance against objectives.

Key attributes are:

- Attention to detail, analytical thinking and the ability to operate in a dynamic and fast changing manufacturing environment.
- Excellent project management skills and the ability to deliver projects within budget, on time and within specification.
- A result driven, hands-on generalist with good practical engineering knowledge and experience to lead a front-line team of Technicians and Artisans
- Strong leadership and interpersonal skills and experience knowledge base
- Resilience and persuasiveness, the ability to function in a tough environment, handle stress and pressure and stand your ground when necessary.

The core requirements for the position include:

- Minimum of a BSc or BEng Mechanical degree qualification
- A minimum of 10 years of engineering experience, with at least 5 years in a Maintenance Engineer role within a manufacturing or similar environment.
- A Government Compliance Certificate for Factories will be a future requirement if not held to be obtained within 24 months after appointment.
- Considerable interest and a good understanding of a maintenance strategy and planning
- Proven maintenance leadership experience and the ability to manage and execute a detailed and complex maintenance plan.
- Proven track record in heavy and complex plant and equipment maintenance
- Industrial understanding, preferably in the metals industry.

Interested applicants are encouraged to apply for this exciting opportunity by emailing their CVs to HRRecruitment1@hulamin.co.za

Candidates who do not receive any correspondence within 1 month after the closing date may assume that their applications were unsuccessful and are hereby thanked for applying.

Closing Date: Friday, 26 January 2024
